

PA@TheCity Non-member Policy

It is important for us as an industry association, that all of The Payments Association's events continue to be and remain an inclusive and welcoming environment for all payments professionals. However, it is our policy and position that PA@TheCity events and the value they provide is first and foremost offered to our members, as organisations that are contributing and investing in our community as a whole. For that reason, whilst we welcome our members to invite their colleagues, associates and professional friends to attend the occasional in-person PA@TheCity event, we also reserve the right to only allow a non-member organisation to attend one event a year outside of membership. As our community continues to grow, in order to provide the consistent value and experience that has become synonymous with PA@TheCity events, this policy will enable our members to get the most from their investment, whilst supporting others in the industry, and developing a stronger community as a whole.

This means that any representative from a non-member organisation, may only attend one PA@TheCity event as a guest, once a year. Following this, they will need to join as a member to attend further events. As our memberships operate at a company level, and not that of individuals, guest attendees will also be considered as having utilised their guest attendance at a company level, irrespective of whether different people would like to attend at different times. This still gives invited non-members an opportunity to experience our events and the power of the community ahead of fully committing as a (paying) member.
